Press release January 28, 2025

Sensys Gatso announces that the development phase of the Swedish order of SEK 850 million is completed

Sensys Gatso Group, a global leader in traffic safety solutions, announces through its subsidiary, Sensys Gatso Sweden, that Sensys Gatso's new traffic safety system FLUX has been approved by the customer the Swedish Transport Administration (Trafikverket).

The rollout of this project can thus begin. The Swedish Transport Administration intends to replace existing cameras and, in parallel, expand the existing installed base.

Jörgen Andersson, Managing Director, Sensys Gatso Sweden, comments:
"We are very happy that the Swedish Transport Administration (Trafikverket), after a solid and in-depth test and verification period, now has approved our new product and that we consequently can continue to contribute to Vision Zero in Traffic Safety. The Swedish ATK program has helped Sweden to save approximately 20-30 lives per year, making Sweden one of the traffic safest countries in the world."
