

Press release 7 June 2016

## Order from Latvia

**Sensys Gatso Group, a global leader in traffic safety solutions, has through its partner RECK received a first order from the Latvian Road Traffic Safety Directorate (CSDD) covering traffic safety systems in Latvia. The appeal of the award notice from a competitor, which delayed the contract signing between RECK and CSDD, was rejected on 2 June 2016.**

On 11 April 2016, Sensys Gatso Group and its local partner RECK were selected by CSDD in a tender for traffic enforcement equipment. As part of the formal process, a competitor filed an appeal which delayed the contract signing. The appeal was rejected on 2 June 2016 and the contract has now been signed by RECK.

Under the contract, RECK will give Sensys Gatso Group three orders with a total value of EUR 2.5 million. Sensys Gatso Group estimates that 50% will be delivered during 2016 and the remainder during 2017.
