

Press release December 19th 2018

Sensys Gatso receives order from the Swedish Transport Administration worth SEK 50 million

Sensys Gatso Group, a global leader in traffic safety solutions, has received an order worth 50 MSEK from the Swedish Transport Administration (Trafikverket).

The order covers systems and cabinets for traffic safety cameras to be installed at new locations. Installation and commissioning of the traffic safety cameras are not included in this order and will be ordered separately as the roll-out plan progresses. Deliveries according to this order will start in the second half of 2019 and be finalized during 2020.

The more than 1700 traffic safety cameras already installed across Sweden are an important part of the implementation of Trafikverket's 'Vision Zero' policy. They are estimated to contribute to saving 20-30 lives per year and reducing the amount of seriously injured people with 70 per year. The Swedish Transport Administration signed a contract with Sensys Gatso Group, covering deliveries of traffic safety systems, in July 2013. This order is placed in accordance with this contract.

"We are particularly proud we have been given the opportunity to further contribute to the execution of Trafikverket's Vision Zero program. We see this as a proof of our excellent partnership", says Jörgen Andersson, General Manager of Sensys Gatso Sweden AB.
