

Press release 12 July 2019

Sensys Gatso receives an order from France worth SEK 16 million

Sensys Gatso Group, a global leader in traffic safety solutions, through its subsidiary Sensys Gatso Netherlands, has received an order for in-vehicle safety systems worth EUR 1.5 million, corresponding to SEK 16 million, from France.

The order is for the delivery of in-vehicle speed enforcement systems to France and is a continuation of the project that Sensys Gatso Group started in 2013. The order is planned to be delivered during the second half of 2019. The use of in-vehicle systems has proven to be a very effective way to enforce speed and therefore reduce traffic fatalities.

"We are proud and pleased that the French Ministry of Interior has extended its confidence in Sensys Gatso with an additional order. The benefits of our in-vehicle system, shown in France, have gained much attention in the global market. This order confirms the strength of this unique solution", says Joris Lampe, Chief Commercial Officer at Sensys Gatso Group AB.
